TECHNICAL SKILLS

Languages: C++, Javascript, Typescript, Java
Developer Tools: VS Code, Git, Github, Docker, Prisma
Frameworks: Node.js, Express.js, React.js, Next.js
Databases: MongoDB, PostgreSQL
Soft Skills: Problem Solving, Quick Learner, Adaptability

PROJECTS

Paytm Wallet | *Turborepo, Next.js, Prisma, Docker* **Apr 2024 – Jun 2024**

- Developed and maintained the front-end and back-end of the application using Next.js.
- Set up and managed monorepo architecture using Turborepo for efficient code sharing and project management.
- Designed and implemented the back-end services with Prisma ORM and Node.js for robust and scalable data handling.
- Containerized the application using Docker for consistent development and deployment environments.
- Implemented features for user authentication, enabling personalized experiences.
- Improved transaction security and speed, resulting in increase in successful payment completions.

Blogging App | *Hono, React.js, prisma* **Dec 2023 – Feb 2024**

- Designed and implemented the user interface using React.js, ensuring a responsive and intuitive user experience.
- Developed the back-end services using Hono, providing efficient and scalable API endpoints for the application.
- Enabled CRUD operations for blog posts, allowing users to create, read, update, and delete content.
- Utilized Prisma ORM for database management, ensuring seamless data handling and querying.
- Successfully implemented secure user authentication, increasing the application's security and trustworthiness.

E-commerce Application | *Mongoose, Express.js, React.js, Node.js* **Jun 2023 – Jul 2023**

- Implemented a responsive user interface with React.js, ensuring seamless navigation and interaction.
- Utilized Node.js and Express.js for backend development, enabling efficient data handling and server-side logic.
- Integrated MongoDB for database management, facilitating scalable and robust data storage.
- The 3 kinds of users seen in this application (Customer, Vendor, Admin).
- Implemented key features including user authentication, product catalog management, and shopping cart functionality.

EDUCATION

Maharishi Markandeshwar deemed to be University **2020-2024**
B.Tech - Computer Science and Engineering - CGPA - 8.5 *Ambala, India*

New Happy Public School **2019-2020**
12th Standard - Percentage - 90% *Yamunanagar, India*

New Happy Public School **2017-2018**
10th Standard - Percentage - 83% *Yamunanagar, India*
